

## CHHF MEDICAL REFERRAL

Providers who see patients needing medical care unavailable at our clinic have several options.

- 1) Emergency patients should be sent to the hospital in Tocoa or Trujillo.
- 2) Medical tests can be obtained at DiaMed in Tocoa. Call 2444-0765. David Kelly has CHHF stationery to be used to send a message written in Spanish to DiaMed so that they know the patient is a CHHF referral and is to be given the following discount:
  - Simple x-ray - 200 lempiras to 400 lempiras (depending on area)
  - Mammogram - 600 lempiras
  - EKG - 200 lempiras
- 3) Currently there are limited surgery referral opportunities. There are NO known opportunities for gynecological care or cancer treatment nor for adult cardiology.
- 4) As for eye/vision needs, there are now teams at our clinic who offer prescription glasses. The Foundation does not have funds for cataract surgery except in severe situations. Possibly this will change in 2018 when a new eye surgery clinic opens near La Ceiba.
- 5) Referral for the following specialized care can be sent to Peggy Hook:
  - pediatric neurology
  - pediatric cardiology
  - plastic surgery
  - orthopedic surgery

Please complete the following information including a description of the medical issue and photos of the patient/problem. Upon return to the States, send this information and digital photos to Peggy Hook, Medical Referral Coordinator at [hookkp@gmail.com](mailto:hookkp@gmail.com)

**Please print so that your handwriting can be read.**

**Two contact phone numbers are imperative; photos are required.**
