

**Give today to
double your gift!**

April 5, 2018

Dear Friends of CHHF,

I'm writing because I need your help.

More than ever before, patients are coming to our clinic with parasites. We note the significant increase in children with parasites. These parasites are common and are life-threatening if the patient doesn't get the medicine they need in time.

All it takes is just 24 cents to treat one person infested with parasites. That means 24 cents can literally save a life. The Board also realizes that an education program is needed to combat this health issue; our Community Development and Education employee has already begun by having classes in the local schools.

In response to my call for help, a small group of donors have stepped up to offer a \$4,000 matching gift that expires April 15. This means that every dollar you send before then will be doubled up to \$4,000!

Can I count on you to send in a generous gift today? Every dollar counts and will go to providing life-saving medicines and other medical care provided by the clinics.

It is so important that we respond to this need right now. Children and families are coming in for help - - help that you can provide.

Let me tell you a story of a little girl named Sesley who was infected with parasites.

Sesley and her mother walked to the clinic. When they arrived, Sesley was so weak and dehydrated that she collapsed. She was vomiting because parasites had blocked her small intestine. Our clinic could not treat this problem; an IV was initiated and soon she was sent by ambulance to the hospital.

By sending your generous gift, you can help to ensure that the clinic is stocked with sufficient medicine and supplies to treat every patient who comes in.

And by donating today, you have the chance to do twice as much good for someone like Sesley and her family. Your gift will help make sure that life-saving medicines and other medical care is always available for the people who come to the clinic. You can make sure no family has to fear losing a loved one to a treatable illness.

Will you give now to DOUBLE your gift and provide medicine to children like Sesley? Your gift will not only provide treatment for parasites, but it will also make sure that other vital medical supplies are always available when they are needed.

Thank you in advance for your generosity. Because of donors like you, more people in Honduras will receive the needed medical care and treatment.

God bless,

A handwritten signature in black ink, appearing to read "N. K. Hook, Jr.".

N. K. Hook, Jr.
President

P.S. Please send in your gift today - every \$1 you give by April 15 will turn into \$2! Not only will you help provide medical treatment to those who need it now, but this is a chance for you to **DOUBLE** your gift!
