Dear Friends of CHHF,

People often come to our clinics in desperate need of medical treatment. That's why I am so thankful for friends like you who choose to make a difference in the lives of people who have no other medical resources accessible to them.

[Because of your giving to CHHF](#), lives are literally being saved!

I thought of you recently when I heard of a young boy who came to our Limón clinic. He had a fever and was extremely dehydrated. The doctor was able to give him fluids and he spent time with the boy's mother educating her how to manage the fever if it returned. This may seem like a simple doctor's visit, but to the families that come to our clinics these visits and prescribed treatments are life-saving.

Did you know that last year over 12,000 people came to our clinics and took the first step towards restoring their health and recovering from illness or injury? That is 12,000 people who were able to go back to work providing for their families, caring for their kids, or kids that were able to continue their education – sometimes walking many miles to get the help they need.

[When you make a donation to CHHF](#) you have a direct impact on the lives of the people that visit our clinics and through them you are changing villages and communities for good.

As I write this letter to you, I am receiving reports from Honduras that the rainy season has caused the dirt roads to our clinic to become impossible to travel. The first team of the year had to

cancel their trip due to the road conditions. Hopefully the remaining team can travel later this month, but that is to be seen. Every day that goes by without a team on site is another day someone sick, hurting and in need goes without care. We will do our best to get there as soon as possible.

Thank you again for caring for the people served by CHHF. Your ongoing gifts restore lives and show them that their lives matter. They don't know you by name, but they know you exist. They know that someone is there financially to keep the clinics open and teams of people coming to Honduras to care for them.

As you go about your day, please know that I see you as a catalyst to helping some of the most vulnerable and hurting people in Honduras. You are the fuel to the CHHF engine and directly impact the moms and dads, kids, and families that need it the most.

Thank you in advance for your generosity this year. The need is at an all-time high and CHHF is ready to respond, but only with your help.

God Bless,

N. K. Hook, Jr.
President
