

CHHF MEDICAL REFERRAL 2021

Providers who see patients needing medical care unavailable at our clinic have several options.

- 1) Emergency patients should be sent to the hospital in Tocoa or Trujillo. David Kelly has CHHF Remission stationery to be used to send a message written in Spanish.
- 2) Medical tests can be obtained at Diamed in Tocoa. Call 2444-0765. Use the Remission stationery which David has with instructions written in Spanish so that Diamed will know the patient is a CHHF referral and is to be given a discount.
- 3) Currently there are NO referral opportunities for cancer treatment or adult cardiology.
- 4) There are limited referrals for surgery and for gynecology and the wait is significant.
- 5) As for eye/vision needs, there are now teams at our clinic who offer prescription glasses. The Foundation can make cataract and pterygium surgery referrals in the spring each year.
- 6) Referrals are made to specific medical groups for the following specialized care:

Dermatology	Pediatrician	Pediatric cardiology
Plastic surgery	Physical therapy	Orthopedic surgery
Vein/leg ulcer clinic		

Please complete the following information including a description of the medical issue and photos of the patient/problem. **Gladis Aquiriano should be consulted regarding the referral while the patient is at the clinic. She will explain the process and the patient responsibilities to the patient. The referral form will be given to Gladis.**

Please ensure that your handwriting is legible.

Two contact phone numbers are imperative; photos are required.

Complete name of patient _____

Date of Birth Ex: 5 May 2014 _____ Patient ID Number _____

Village _____ Clinic Location and Date Seen _____

Phone Number if adult _____ Alternate Contact Number _____

Mother or Father Name and Phone Number if minor _____

Alternate Contact and Phone Number _____
